In the wake of the project Geração Global, AMC developed in 2019 an innovative tool: Toolkit Geração Global. It has the goal to promote Global Education to youth workers and youngsters. It is an artistic resource to be used by educators and youth workers to promote active citizenship and Human Rights awareness through a pedagogical approach.

The tool is composed by an illustrated manual of the Universal Declaration of Human Rights, an illustrated Handbook of Invisible Discrimination, and a video animation regarding freedom of expression.

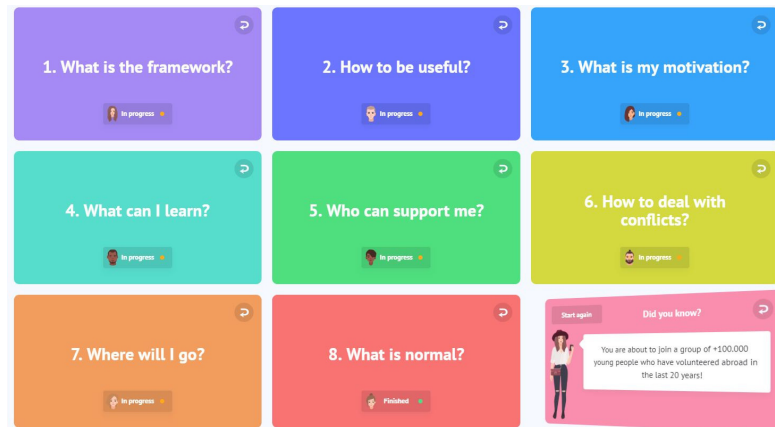

The tool was presented in May 2019 in Lisbon to a group of 25 youth workers and activists. This presentation was part of a training course organized by AMC, dedicated to test and explore the potential of the Toolkit.

TACC SPAIN - MORE THAN 200 PEOPLE ATTENDED THE PREMIERE OF THE DOCUMENTARY "YALAH" IN SABADELL

TACC - Spain

On Wednesday, February the 27th, Sabadell once again demonstrated its commitment to the Sahrawi people in a key year, in which it is commemorated the 30 years of Twinning between Sabadell and Argub (Western Sahara). On the day the 43rd anniversary of the proclamation of the Arab Democratic Sahrawi Republic (RASD) was celebrated, the city hosted the premiere of the "Yalah" documentary.

The documentary, with the authorship of TACC and produced by the City Council of Sabadell, is one of the actions that have been carried out based on the new twinning project of Sabadell with the Sahrawi people.

Yalah shows five stories of anonymous people living in Sahrawi refugee camps. These stories are linked to the five axes of the current twinning project between the Sahrawi people and the city of Sabadell: gender, awareness, youth, education and health.

Among the audiences, so heterogeneous, it was highlighted the assistance of some of the young people who assisted in the 2018 Saharan solidarity camps, some of the members of Solidaris with the Saharawi People of Sabadell, and even some Saharawi who live in the city. Míriam Ferrándiz and Mario Álvarez were in charge of presenting the event and of contextualizing and introducing the public in the current context suffered by the Sahrawi people.
